Employment First Implementation

Please note that New Jersey is an Employment First State, meaning that: "Competitive employment in the general workforce is the first and preferred post education outcome for people with any type of disability." In conjunction with this policy, at least one plan outcome must be related to employment, the pursuit of employment, or the exploration of employment unless the individual is of retirement age.

Employment Status : Unemployed - No Experience/Training Madison attends Kingsway day program where she works on employment skills. She may be interested in pursuing part time work in the future.

Employment Plan : Continue thinking about the possibility of going to DVRS for employment services and supports
Consider exploring employment options through Career Planning services
Consider building skills or gaining work-related experiences through volunteer work by using Prevocational Training services
Consider spending time learning more about employment/work through job touring, job shadowing, job clubs, and/or job sampling
Consider watching videos, reading books, exploring the Internet for information about various jobs/career
Additional activities you may consider to assist you in exploring employment options include but are not limited to the following:
Seek benefits counseling/planning through providers of this service, Supported Employment providers that offer benefits counseling services, the Social Security Administration, or other entities with expertise in this area.
Use www.njdb101.org to assist in calculating your benefits
Determine whether WorkAbility (NJ's Medicaid buy-in program) is an option for you by DDS at 888-285-3036 or visiting www.state.nj.us/humanservices/dds/projects/discoverability.

Voting Plan : Not Registered to Vote Does Not Want to Register to Vote. Not Planning to Vote.

Health & Nutrition Needs

Allergies

Environmental

- Madison has seasonal allergies which cause runny nose and itchy eyes. She will take over the counter Benadryl or Zyrtec as needed.

Dietary

None

- None - No Reported Dietary Needs

Health Hazards

Other

- Madison has asthma which presents seasonally. She has a nebulizer with albuterol that she will use as needed. This is treated by her primary care physician.
- Madison has not received physical, speech and occupational therapies in the past 3 months, differs from NJ Cat.

Self-Care

Adjusting water temperature

- Madison is independent with adjusting water temperature.

Blowing nose

- Madison needs lots of assistance with blowing her nose. She will not blow her nose unless prompted.

Chewing & swallowing

- Madison is independent with chewing and swallowing.

Dressing

- Madison can dress herself independently. She needs lots of assistance with tying shoes. She does not tie shoes herself, mom will help.

Drinking on own

- Madison can drink on her own.

Feeding self

- Madison can feed herself independently.

Other

- Madison can remember events that happened a month or more ago, she knows her daily routine and associates events with past, present and future. Madison associates regular events with a specific hour. She can tell time on a digital clock but does would need assistance to understand the difference between 5 minutes before of after.
- Madison and her mother decide together how to spend time during the week. Others decide how to spend money, when to see friends, leave the house or go over someone else house. Others decide where to go, the movies, library, beach or park. Madison's mother will make plans for the day and then let Madison know what they are going to do.

- Madison can move around the home independently.
- She needs mainly supervision with reminders to wash her face. Madison needs lots of assistance with combing her hair. She can brush but mom will brush and style her hair. Madison needs mainly supervision when drying her body. She will do herself but not always completely dry. Mom will check and help if needed.

Toileting - bladder

- Madison needs mainly supervision with the restroom. She will sometimes need reminders to go.

Toileting - bowel

- Madison needs mainly supervision with the restroom. She will sometimes need reminders.

Using microwave

- Madison needs mainly supervision for the microwave. She knows how to heat some things up but will ask about other things.

Using stove

- Mom cooks all meals that require the stove. Madison would need complete support to use the stove.

Washing hands

- Madison needs mainly supervision with hand washing. She sometimes needs reminders.

Safety and Support Needs

Behavior

Other

- Madison tends to look away when others are speaking to her. Others can not tell how she is feeling based on facial expressions. Madison prefers to spend time with others and is comfortable being part of a group. Madison shows enjoyment and sadness. She likes to do things with others and takes turns easily. Madison notices when others are upset. Madison words vary by subject and she likes to do a variety of activities. Madison does use some repetition, especially with her father. She will have the same conversation with him every time she speaks to him. She also tends to ask about things in the future. For example, she will at lunch time today she will ask what they are having for dinner tomorrow.

Mobility

- Madison is independent in all areas of mobility. She can roll over, stand, go up and down stairs and transfer small objects. Madison can sit independently for five minutes or more and walk without assistance.
- Madison uses a communication device. She uses an app on her iPad. She will also take a picture to help communicate.

Religious/Cultural

None

- No Reported Religious/Cultural Preference or Restriction

Support Settings

Community

- Madison requires someone to be with her when out in the community and needs line of sight supervision. She sometimes needs reminders to use the restroom before going out. She would require prompts in case of an emergency.
- Madison needs lots of assistance with prompting for choosing items she wants to buy, using money, making small purchases and counting change.
- Madison would need full support to use public transportation. Mother provides all transportation.
- Madison needs mainly supervision when choosing items for a simple meal. She has done this in school but mom does at home. She needs a lot of assistance when preparing meals that do not require cooking. She needs step by step prompts. When in school, Madison needs mainly supervision to order food in public. At home, mom orders food for Madison.
- At Kingsway, Madison does not use money in the program and does not require any mobility assistance. When in the community Madison would require prompts in case of an emergency.

Madison has access to food at any time during day program.

Home

- Madison can be home for about 2-3 hours by herself. She has not been home alone overnight. She does have a cell phone and will call her mom if needed. She knows to leave the house and call 911 in case of an emergency.
- Madison needs supervision in prompts and reminders to make the bed. She needs reminders to clean her room. Mom does all laundry, Madison would need full assistance to do laundry. She has needs lots of assistance with folding and putting away clothes, mom mainly does this. Mom washes all dishes. Madison would need complete assistance to wash dishes, differs from NJ Cat.

- Dawn is currently working on an emergency plan for Madison's care.

Work

- At Kingsway, Madison will be given a verbal prompts during an evacuation.

Madison would need supervision and reminders to stay on task while working. She may need verbal prompting when learning a new task. Madison would also need transportation to get to work.
